Team Captains are responsible to see that each athlete registers with photo ID and proof of employment (i.e. Human Resource letter or Pay stub). It is the responsibility of each participant to have the proper ID.

Players must register at the event together with a minimum 3 eligible starting players.

Up to 5 players may register each day of the tournament.

TEAM MATCH PLAY

A team match shall consist of the best of 5 singles matches. The first team to win 3 singles matches will win the team match.

Choosing from the 5 registered players on the team roster, the team captain will assign 3 players to play each team match (one of alternate gender), assigning each player to the position of player A, B, or C (or X, Y, or Z).

Once a team match has commenced no alternates or substitutes will be allowed to play.

Team captains will ensure that team matches are started promptly and completed on time. Each team match will be allowed a total time of 75 minutes.

If any player is not available to play their singles match when it is due to be played, the team will be deemed to not have a full team and will default the entire team match.

SINGLES MATCH PLAY

A singles match shall consist of the best of 5 games. The first player to win 3 games will win the singles match. If a team gets into time trouble, the local organizers may choose at their discretion to reduce a singles match to the best of 3 games, in which case the first player to win 2 games will win the singles match.

The 5 singles matches will be played in the following order: A vs X, B vs Y, C vs Z, A vs Y, and B

vs X.

If a player is unable to complete a singles match, they will register a singles match loss, recording the numbers of games and points won in the singles match up to the time of the forfeit.

DISPUTES

Team captains and players are generally responsible for resolving disputes about match play among themselves. However, if there is a dispute about the legality of play that captains and players cannot resolve themselves, the event coordinator may appoint an umpire for the match.

This umpire's decisions will be final.

If there is a question concerning the interpretation of the event rules, the event coordinator may be asked to make a final determination.

POOL PLAY

The number of team matches won by each team will be used to determine the teams that advance to the medal round from each pool.

Teams will earn one team match point for each team match they win. The team with the most team match points will be determined to be the first place team in the pool.

If two or more teams are tied, having the same number of team match points in their pool, their relative positions shall be determined by using only the results of the teams involved in the tie.

First, by the total number of team match points; then if still tied, by the total number of singles matches won divided by the total number of singles matches lost; then if still tied, by the total number of games won divided by the total number of games lost; then if still tied, by the total number of points won divided by the total number of points lost; then if still tied, by lot.

Default scoring will be 11-0 per game.
